

Studying Tips & Tricks

Orientation Weekend 2019

Mandatory Courses

- ▶ Advanced Macroeconomics I (Prof. Landmann + Markus)
 - ▶ Understand the models inside out
- ▶ Advanced Microeconomics I (Prof. Eggert)
 - ▶ Absolutely no clue (so work hard!)
- ▶ Economic Policy & Public Choice (Prof. Neumärker)
 - ▶ Don't Underestimate; you have a real chance to get a good grade
- ▶ Computational Economics (Prof. Neumann)
 - ▶ Become friends with R

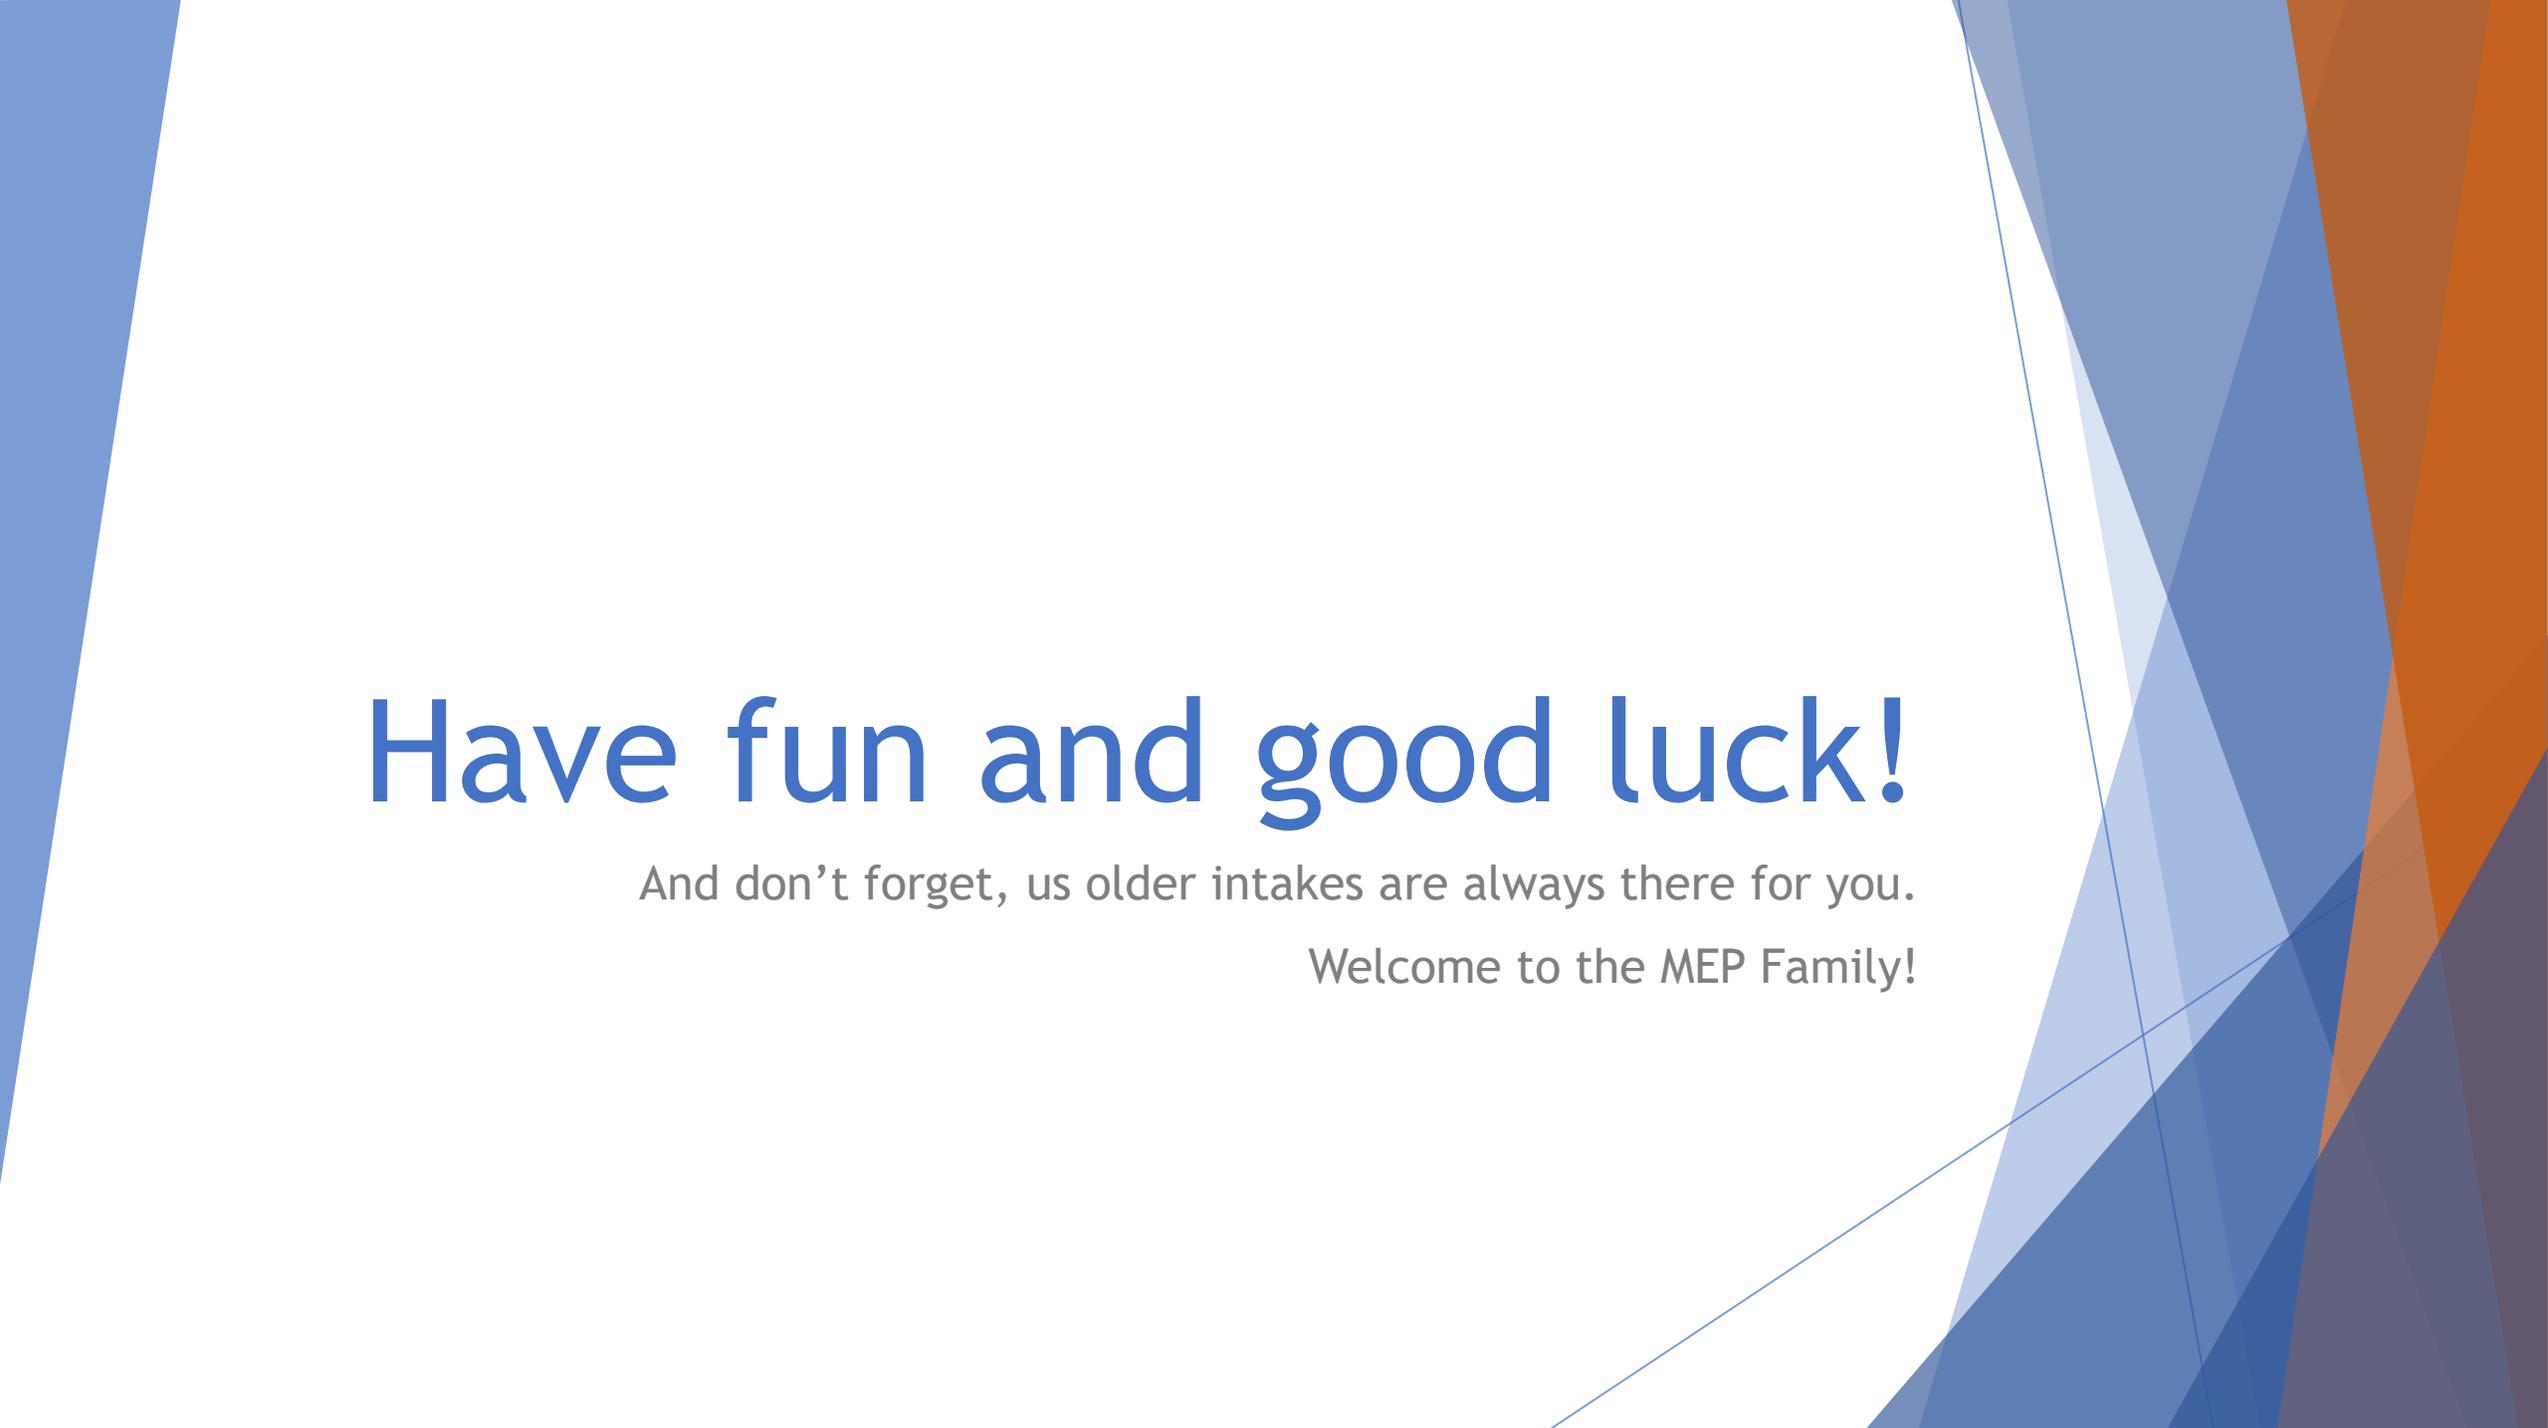

Study Strategy

- ▶ Which courses should I pick and attend?
 - ▶ *Advanced Mathematics* could be a very helpful option!
- ▶ Be aware of exam timetable (should I sit the retake?)
- ▶ Seminars but mostly for second year students
- ▶ Lecture vs tutorial vs additional tutorial
- ▶ Libraries
- ▶ Don't forget to SIGN UP for exams!

Study method

- ▶ First Semester will be the hardest: study hard from day 1!
- ▶ Print slides on paper and annotate them
- ▶ Reread slides afterwards + further literature
- ▶ Help each other out!

- ▶ In class ask questions (!) :
 - ▶ When the teacher speaks to fast
 - ▶ When you have “stupid/simple” questions
 - ▶ When you have ”good” questions
 - ▶ But! Respect your classmates and don't monopolise time or discussion

Have fun and good luck!

And don't forget, us older intakes are always there for you.

Welcome to the MEP Family!
