

Internship Letter Procedure

If you require a letter for an internship, please send an e-mail to the Admin e-mail: mep.admin@vwl.uni-freiburg.de. We will process the request and send a scanned copy to you via e-mail or you can pick up the original at the MEP office.

Our internship letters include your enrollment status, description of the program and our recommendation that you can participate in an internship as part of your master's study.

It does not state that it is a compulsory internship, but for most of the employers it suffices with the mention that the University encourages the student making the internship and does not oppose it.

The letter can be provided in German and English. Please specify the language in your request.
