

To whom it may concern

Physical presence required for studying at the University of Freiburg

Dear Sir or Madam,

I hereby confirm that **the physical presence of students their studies in Winter Semester 2020/21 is required by the regulations of the University.**

Particularly, there will be a focus of the on-site teaching of the courses of the 1st and 2nd semester in order to give these students the opportunity to get to know "normal" study operations. It will be therefore ensured that every first-year student in the first and second semester attends an on-site course at least twice a week.

The lecture period of the winter semester will start on November 2nd, 2020 and finish on February 12th, 2021.

Further, due to specific legal regulations, examinations at the University of Freiburg can only be taken on-site, even if the corresponding lectures being tested are offered online. Therefore, **students must be in Freiburg in order to take their examinations.**

The examination period for summer semester 2020 starts on July 25th 2020 and ends August 31st 2020.

The examination period for winter semester 2020/21 has not yet been announced but will probably start on February 2021 and end on March 2021.

For any inquiries, I am gladly at your disposal.

Sincerely,

**Master in Economics Program
